See below:
Approvals and Compliances

Description

- Mechanical switch with stroke in different versions LA (Latching) and MO (Momentary)
- Single-/ or multicolor illumination
- With torsion protection for easier handling
- Equipped with flat plug in terminals to permit fast connection
- MSM MO: Protection class IP67 frontside

Unique Selling Proposition

- Attractive tactile feedback
- High quality materials
- Long life span
- Color marking

Characteristics

- Housing material in high-quality stainless steel or aluminium
- Variety of design options regarding size, colour, illumination, connection or lettering
- Switching voltage from 30 VDC to 250 VAC
  Switching current from 0.1 A to 16 A
- Actuator: aluminium/ stainless steel/ ceramics
- For use in harsh environments

Technical Data

Electrical Data	
Supply Voltage LED	see table of variants
Micro Switch	see table of variants
Impulse Withstand Voltage (ESD)	2 kV
Mechanical Data	
Actuating Force (MO/LA)	4.5 N / 10 N
Actuating Travel (MO/LA)	1.0 mm / 5.2 mm
Lifetime	1.5 million actuations
Shock Protection	IK07 to IK10
Mounting screw torque Plastic Nut	max. 3.5 Nm

Climatical Data	
Operating Temperature	-25 to 85 °C
Storage Temperature	-25 to 85 °C
Salt Spray Test (acc. to DIN 50021-SS)	24 h / 48 h / 96 h Residence Time
Material	
Housing	Aluminium / Stainless Steel
Actuator	Aluminium / Stainless Steel / Ceramics
Seal Ring	NBR70
Plastic Nut	PA, UL94

Approvals and Compliances

Detailed information on product approvals, code requirements, usage instructions and detailed test conditions can be looked up in Details about Approvals

SCHURTER products are designed for use in industrial environments. They have approvals from independent testing bodies according to national and international standards. Products with specific characteristics and requirements such as required in the automotive sector according to IATF 16949, medical technology according to ISO 13485 or in the aerospace industry can be offered exclusively with customer-specific, individual agreements by SCHURTER.

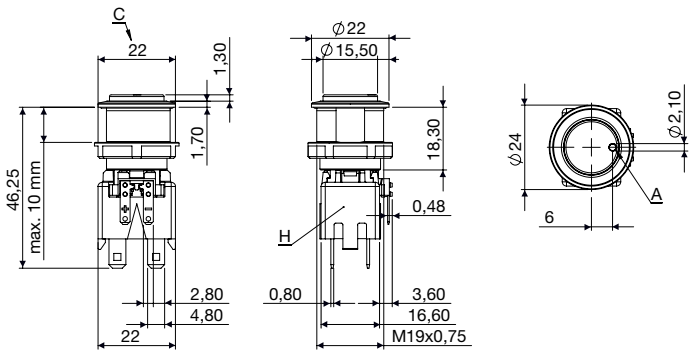

Compliances

The product complies with following Guide Lines

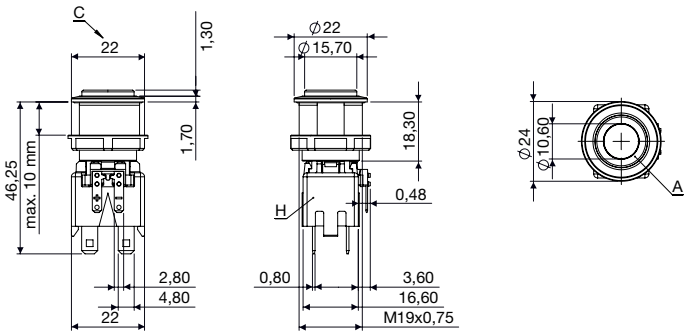

Identification	Details	Initiator	Description
CE	CE declaration of conformity	SCHURTER AG	The CE marking declares that the product complies with the applicable requirements laid down in the harmonisation of Community legislation on its affixing in accordance with EU Regulation 765/2008.
UKCA	UKCA declaration of conformity	SCHURTER AG	The UKCA marking declares that the product complies with the applicable requirements laid down in the British Amendment of Regulation (EC) 765/2008.
RoHS	RoHS	SCHURTER AG	Directive RoHS 2011/65/EU, Amendment (EU) 2015/863
REACH	REACH	SCHURTER AG	On 1 June 2007, Regulation (EC) No 1907/2006 on the Registration, Evaluation, Authorization and Restriction of Chemicals 1 (abbreviated as "REACH") entered into force.

Tolerance Range

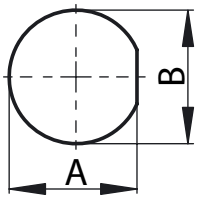

Actuator Tolerance Range

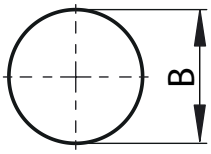

The mounting tolerance range of the actuator varies from 0.2 mm projection length and 0.2 mm short length to the housing edge. The slanting position of the actuator can range within this tolerance.

Dimension

With torsion protection

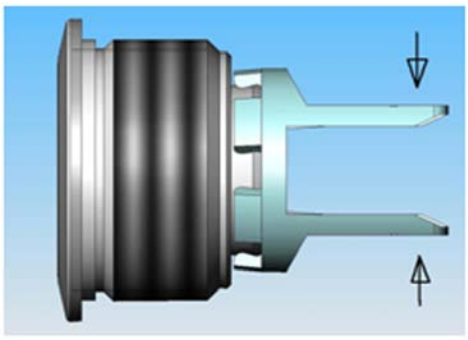

Without torsion protection

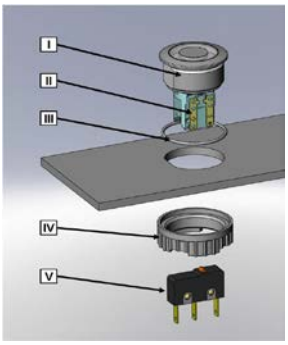

Diameter in mm	A	B

Assembly Instructions

During assembly, the protruding bars of the holder should not be pressed together.

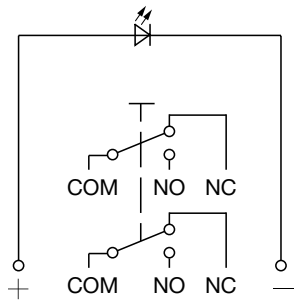

I Housing
II Flat Pin Terminal (Illumination)
III O-Ring gasket
IV Nut (Nut type see Dimensions)
V Module Switching Contact

Installation Instruction:
1. Place the gasket accurately on the actuator housing. Then mount the actuator housing assembly into the panel.
2. Tighten the screw nut according to the torque instructions.
3. Clasp the module switching contact into the micro switch holder of the actuator housing.

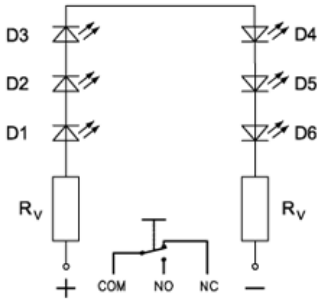

Installation information:
- The power supply and the configuration of the flat pin terminals have to be installed correctly for the illumination and micro switch function.
- Insulate the terminals as required. Fully insulated plug-in sleeves are recommended.
- Installation instructions according to VDE-standard DIN VDE 0100-100 or alternatively IEC 60354 standard.
- During assembly, the protruding bars of the holder should not be pressed together.
