Prismatic and Coin Cell Supercapacitors

Ultra-compact Storage Solutions for Instant Energy

Coin Cell

SCCC:
5.5 V | 100 - 1500 mF
Vertical Design

SCCA:
5.5 V | 100 - 1500 mF
Radial Design

SCPC:
2.75 - 5.5 V | 120 - 2400 mF
High Temperature Rating

SCPB:
2.5 - 5 V | 90 - 2400 mF
Excellent Low Temperature Performance

Prismatic

SCPA:
3 - 5.5 V | 35 - 1000 mF
Ultra Slim Design

Typical Applications

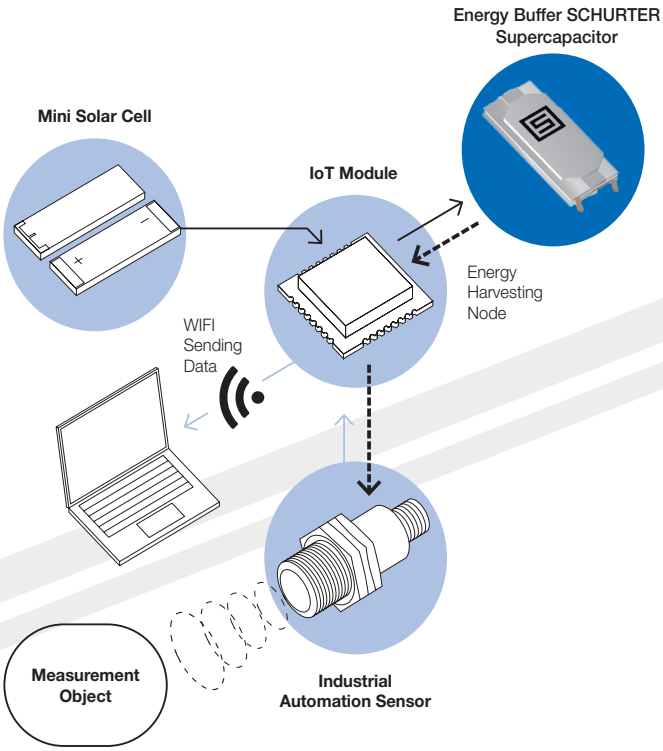

- Automotive Devices
- Small Mobile Devices
- Internet of Things
- Smart Counters
- Wireless Sensors
- Small Medical Devices

Key Features

- Peak Power for Pulse Loads
- Mission-critical Low Voltage Ride Through Power
- Quick Power Charges

Advantages

- High Power Density
- Low ESR with High Current Handling
- Very Low Self Discharge
