INTRODUCING

HERMETICALLY SEALED PANEL MOUNT RF ADAPTERS

- Adapters feature a glass bead soldered into the connector for an airtight seal
- Rugged connector for harsh environments
- For use in vacuum sealed environments

TE Connectivity (TE) introduces an extension to our RF connector product line. Used in applications with a high pressure differential, hermetically sealed panel mount RF adapters feature a glass bead soldered into the connector for an airtight seal. SMA, TNC, and BNC versions are available.

APPLICATIONS

- High pressure and airtight seal applications
- Antennas
- Internet of Things (IoT)
- Instrumentation

- TNC Version

KEY BENEFITS

- Rugged connector for harsh environments
- For use in vacuum sealed environments

PRODUCT FEATURES

- Panel mount bulkhead adapters
- Stainless-steel – Nickel plated
- SMA, TNC, BNC versions available
- <1 x 10e-8 atm ccm/second leakage rate
- 50 Ω impedance
